Assignment 5 Queue

To run my code-

Enter: ./Queue.out

I provided two different outputs that have two different examples

```
-bash-4.2$ ./Queue.out
Back was a success
Back was a success
Back was a success
Back was a success
-----
testing to see if front was a success
Front was a success
-----
Here is the queue before dequeue
0 1 2 3
-----
This is the queue after removing front of queue(dequeue)
Dequeue was a success
1 2 3
-bash-4.2$ vim main.cpp
-bash-4.2$ g++ main.cpp Queue.cpp -o Queue.out
-bash-4.2$ ./Queue.out
Back was a success
Back was a success
Back was a success
Back was a success
Back was a success
Back was a success
-----
testing to see if front was a success
Front was a success
-----
Here is the queue before dequeue
0 1 2 3 4 5
-----
This is the queue after removing front of queue(dequeue)
Dequeue was a success
1 2 3 4 5
-bash-4.2$ whoami
h702967179
-bash-4.2$ █
```
